

Environmental Policy

DWG attaches great importance to protecting the environment and will continue to work towards introducing procedures and the use of materials to help to minimize any potential adverse effect on the environment caused by the carrying out of our and our client's day to day operations.

DWG will therefore:

- Comply with all applicable environmental legislation and codes of practice.
- Take positive action to minimise waste and encourage recycling for the company and its clients.
- Maintain management controls and procedures to implement environmental objectives.
- Work with suppliers and clients to encourage the sourcing of materials from sustainable resources.
- Improve efficiency in the use of fuel, water and raw materials.
- Raise company and client's awareness of and commitment to maximising environmental performance.
- Review the company environmental policy annually to take account of legislative and organisational changes.

A handwritten signature in black ink, appearing to read 'D Gadd'.

David Gadd

Managing Director and Director responsible for Health and Safety
